

CONTENTS:

ENGINEERING MATERIALS

- Model for a piezoelectric strip of crack arrest subjected to Mode-I loadings** 5
R.R. Bhargava, A. Setia (India)
- Attachments of implant retained tissue supported denture under biting forces** 13
J. Żmudzki, W. Chladek, J. Krukowska (Poland)

MANUFACTURING AND PROCESSING OF ENGINEERING MATERIALS

- Effect of cooling rate on the solidification behavior of magnesium alloys** 21
L.A. Dobrzański, M. Król, T. Tański, R. Maniara (Poland)

ENGINEERING MATERIALS PROPERTIES

- Finite Element Method application for modelling of mechanical properties** 25
L.A. Dobrzański, A. Śliwa, T. Tański (Poland)
- Modelling the influence of carbides on tool wear** 29
J. Lorentzon, N. Järvstråt (Sweden)

METHODS OF ANALYSIS AND MODELLING

- System of second order robot arm problem by an efficient numerical integration algorithm** 38
R. Ponalagusamy, S. Senthilkumar (India)
- Modelling of the optimum cooling condition in two-dimensional solidification processes** 45
D. Słota (Poland)
- Finite element modelling of the fracture behaviour of surface treated Ti-6Al-4V alloy** 53
W. Ziąja (Poland)

Indexes

- Author index** 61
- Keywords index** 62
