

CONTENTS:

ENGINEERING MATERIALS

Kinetics of composite solidification taking movement of components into consideration	69
M. Cholewa, D. Bartocha (Poland)	

MANUFACTURING AND PROCESSING OF ENGINEERING MATERIALS

Effect of the cutting speed on the chip morphology and the cutting forces	77
A. Daymi (France, Tunisia), M. Boujelbene (France), S. Ben Salem, B. Hadj Sassi (Tunisia), S. Torbaty (France)	
Experimental investigation of dynamic instability of the turning process	84
J. Kopač (Slovenia), A. Stoić, M. Lucić (Croatia)	
The optimal design of micro-punching die by using abductive and SA methods	92
J.-Ch. Lin, K.-S. Lee, W.-S. Lin (Taiwan)	
Ductile fracture locus of AC4CH-T6 cast aluminium alloy	100
H. Mae (Japan, USA), X. Teng, Y. Bai, T. Wierzbicki (USA)	

METHODS OF ANALYSIS AND MODELLING

Parametric Finite Element Analysis of square cup deep drawing	106
F. Ayari, T. Lazghab (Tunisia), E. Bayraktar (France)	
A comparative study on the damage initiation mechanism of elastomeric composites	112
T. Da Silva Botelho, N. Isac, E. Bayraktar (France)	
An analysis of modified Jominy-test (JMC[®]-test)	120
B. Smoljan, D. Iljkić, S. Smokvina Hanza, F. Traven (Croatia)
